

FOREWORD

This manual is issued to assist claimants in preparing mandated cost claims for submission to the State Controller's Office. The information contained in this manual is based on the State of California's statutes, regulations, and the parameters and guidelines (Ps & Gs) adopted by the Commission on State Mandates. As each mandate is unique, it is imperative that claimants refer to the claiming instructions and Ps & Gs of each program for updated data on established policies, procedures, eligible reimbursable activities, and revised forms.
